### Software Engineer, Iterable
OCTOBER 2021 — PRESENT

- Served as tech lead for front-end development efforts to make locales easier to see and manage in core functions.
- Identified project risks and presented findings on the limitations of a third-party technology partner — these recommendations led to the development and delivery of a new image upload feature.
- Resolved over $7mm in ARR deal challenges through the delivery of an enhanced query tool recognized as "Best Shipped" at Iterable's Hack Week.
- Worked in a cross-functional capacity during the entire lifecycle of 4 large scale projects, including engineering design and planning, deployment, and maintenance in production

### Software Engineer, Diligent
APRIL 2019 — SEPTEMBER 2021

- Worked across 3 enterprise level applications.
- Completed refactor of webapp from ASP.Net to ReactJS.
- Created reusable web components to use across multiple webapps.
- Co-lead front end development of messaging app focused on secure communication.
- Applied global design system to Angular webapp.

### Front End Developer, Union Co.
MARCH 2018 — APRIL 2019

- Used ReactJS, Laravel, CSS/SCSS, and HTML.
- Nominated 5 times for company "Kick Ass Award" - a peer recognition program.
- Led development team for client's largest campaign.
- Implemented Redux for global state management across webapp.

### Application Developer, Movement Mortgage
FEBRUARY 2017 — MARCH 2018

- Led small team in front-end development, UX thinking, and product development.
- Recognized as Creative of the Month for developing a cost-saving and business driven application that connects potential home buyers with loan officers.
- Created lead generation tool that helped to improve outreach experience for loan officers

### Software Engineer, Conexus Technology
APRIL 2016 — JANUARY 2017

- Full Stack Development with a focus on bringing digital interactions to real world events.

### BBA in Marketing, University of Cincinnati
JUNE 2010
